# TABLE OF CONTENTS

## WELCOME

At Seizmik, we want our customers to be happy with our products, While we make every effort to ensure quality design, manufacturing and packaging mistakes can happen. If your product is missing a part or contains a defect—heck, even if you broke it out riding—please contact us and we will do our best to work with you to find a solution.

## HOW TO ORDER

We are not a retailer, meaning we do not sell our products direct to consumers. You won't be able to visit our website and enter a payment method to purchase our products. You also won't find our products in big box stores. What you **can** do is visit one of over 5,000 Powersports Dealers or Retailers to purchase Seizmik products.

## DEMAND SEIZMIK

And don't forget, when you're looking to customize your new (or old) UTV or Side-by-Side, be sure to demand Seizmik mirrors, windshields, door kits, gun holders, and more great aftermarket parts to make your ride more functional and fun. If for some reason they don't have what you are looking for, be sure to Demand Seizmik.

# NEW PRODUCTS

Get it while it's hot! We are proud to have recently added these products to our collection. For an even more up-to-date listing of products, visit us at [SEIZMIK.COM](http://SEIZMIK.COM).

## PURSUIT NIGHT VISION LED PAGE 7

Seizmik's best selling mirror now comes equipped with white and green Cree LED chips to provide peripheral illumination to the mid-forward and side ground areas around the UTV.

MSRP: \$279.99

## HALO-RA SERIES MIRRORS PAGE 3

### HALO-RA BILLET

Features CNC-milled 6061 aircraft-grade aluminum bezel and components along with stainless steel hardware.

MSRP: \$199.99

### HALO-RA LED

A Halo-RA Cast mirror with multimodal, high intensity COB [Circuit On Board] map and RGB accent LEDs in an IP65 housing.

MSRP: \$149.99

### HALO-RA CAST

Features powder coated, cast aluminum bezel and components along with stainless steel hardware.

MSRP: \$99.99

\*all shown with 1.75" Universal fitment

## ICOS 2 AR PAGE 25

A universally fitting item that simply requires a seatbelt to mount it into your vehicle. The proprietary foam chassis is tough and durable yet absorbs shocks and vibrations while keeping your firearms steady and protected.

MSRP: \$229.99

## CARGO X100 PAGE 30

This self-storing bed extender deploys quickly and increases the available storage and hauling capacity of the Honda Pioneer 1000-5 and 700-4 when the rear seats are in their upright position.

MSRP: \$399.99

## WINDSHIELD WIPER WASHER KIT PAGE 24

This universal kit designed for hard coated or scratch resistant polycarbonate windshields includes: four independently adjustable dual washer jets; 110° of wiper range motion to cover the driver's side of the windshield; and a 2 speed motor with a park position.

MSRP: \$279.99

EVERY MIRROR—NO MATTER WHAT

YES, EVEN IF YOUR  EATS IT OR YOU SHOOT IT! 

ACTUAL COVERED WARRANTY CLAIM—WE CAN'T MAKE THE STATE UP.

HALO-RA SERIES REAR VIEW MIRRORS

STANDARD FEATURES

- **Shatter Resistant Safety Glass** — For maximum safety
- **Convex Mirror Glass** — Convex surface provides super wide viewing range with added image stability
- **High Optic Glass** — Chrome plated backing provides superior image clarity and definition
- **304 Stainless Steel Hardware** — High Grade Corrosion Resistant Hardware for years of reliable trouble free performance
- **Seizmik Design** — Styled to compliment all SEIZMIK side view mirrors
- **Low Profile Hinged Clamps (Round Tube Fits)** — Clamp design provides extreme clamping power, minimal interference with other accessories, and a simple installation. For 1.75" ROPS and 2.0" (with shim for 1.875") ROPS
- **Mounting Solutions Available for OEM Mounting Plates & Header Panels** — Specifically designed mounting solutions for Polaris Pro-Fit Ranger (Full and Midsized) Factory Header Panel, Can-Am Defender Factory Header Panel, and Can-Am X3 Factory Rearview Mirror Mounting Plate
- **3/8"-16 Mounting Post Thread** — Popular thread used for mounts in most custom roll cages.
- **Aluminum Locking Block** — Locking Block and bolts lock ball stud in place to prevent unwanted movement under the roughest conditions
- **Stainless Steel Stud Lock Bolts** — Set Bolts can lock mirror into place or be adjusted to allow for smooth movement with enough resistance for micro adjustment.
- **Easily Servicable** — The aluminum housing may be removed and the convex safety glass may be replaced without having to replace the whole mirror
- **UNLIMITED LIFETIME WARRANTY**

1.75" Universal Round Tube ROPS

2" Universal Round Tube ROPS (with shim for 1.875")

Polaris Pro-Fit OEM Header Panel

Can-Am X3 OEM Mounting Plate

Can-Am Defender OEM Header Panel

HALO-RA BILLET

MSRP: \$199.99

- **6061 Aircraft Grade Aluminum CNC Milled Components** — Precision milled hard anodized aluminum for high performance and durability
- **Laser Etched Graphics** — High resolution laser etched graphics on hard anodized aluminum finish won't wear off
- **Standard Features** — (see above)

Fitment	Part #
1.75" Universal	18011
2" Universal w/shim for 1.875"	18012
Polaris Pro-fit Ranger	18013
Can-Am X3	18014
Can-Am Defender	18015

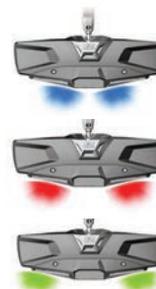

HALO-RA LED

MSRP: \$149.99

The Seizmik Halo-RA LED Rearview Mirror features multimodal, high intensity RGB LEDs and a high intensity COB map light along with a powder coated cast aluminum bezel and an ABS rear housing. The result is a strong, lightweight, and durable mirror with a convenient hands free cab light.

- **IP65 Weather Resistant LED Housing** — Will withstand washing with a hose, but don't submerge it!
- **Scratch Resistant Polycarbonate LED Lenses** — For years of reliable performance
- **High Intensity RGB Programmable Lights** — Set preferred color for functional or accent lighting: red for night vision or accent; green for night vision or accent; or blue for accent
- **High Intensity COB Map Light** — 2 intensity settings: 30 Lumen Low or 120 Lumen High
- **Operates on 4 AAA Batteries** — 4 AAA Duracell batteries included
- **Solid Cast Aluminum Components** — Powder coated cast aluminum for lightweight performance and durability
- **Standard Features** — (see page 3)

## MIRROR MOUNT FOR POLARIS GENERAL

PART# 18069

MSRP: \$1799

Mounting extension brackets for installing Pursuit, Strike, and UTV Side View mirrors on Polaris General

- Heavy-duty steel
- Designed specifically for Polaris Generals
- Mounts to vehicle using factory roll cage bolts
- Reduces paint marring by keeping clamps off of roll cage
- Works with all pairs of SEIZMIK single-bolt mirrors [\*excluding Universal UTV mirrors]
- Sold in pairs

## MIRROR MOUNT FOR POLARIS RZR

PART# 18070

MSRP: \$1799

Mounting extension brackets for installing Pursuit, Strike, and UTV Side View mirrors on Polaris RZR

- Heavy-duty steel
- Designed specifically for Polaris RZRs
- Mounts to vehicle using factory roll cage bolts
- Reduces paint marring by keeping clamps off of roll cage
- Works with all pairs of SEIZMIK single-bolt mirrors [\*excluding Universal UTV mirrors]
- Sold in pairs

## MIRROR MOUNT FOR POLARIS PRO-FIT RANGERS

PART# 18085

MSRP: \$9.99

Designed to be used with any current Seizmik side view mirror; these mounts move the mirrors forward and off of the roll cage. Allows for the use of full doors and tip-out windshields.

- Designed to bolt to the Polaris Pro-Fit Ranger door latch (or netting) bolts
- Can be used with or without windshield to prevent clamps from scratching the roll cage
- Works with SEIZMIK Strike and Pursuit Side View Mirrors
- 4 mm thick steel minimizes vibration
- Sold in pairs

**MOUNT ANY OF OUR MIRRORS TO A HARD DOOR. HERE'S HOW!**

\* DOES NOT FIT REDESIGNED 2018 RANGER 1000XP WITH THE NEW BODY STYLE RELEASED IN MID-2017 (See seizmik.com/faq/ for a side-by-side comparison of the various 2018 model Rangers).

## POLARIS PRO-FIT RANGERS

**FULL SIZE**  
**PART# 06022**  
**MSRP: \$779.99**

**MIDSIZE**  
**PART# 06023**  
**MSRP: \$759.99**

The SEIZMIK Framed Door Kit for the Polaris Full Size Pro-fit Ranger attaches to the vehicle without cutting into body plastics and requires NO drilling to install. Equipped with an automotive grade gasket, durable UV resistant PVC coated heavyweight nylon fabric, and an automotive style latching system, the SEIZMIK Framed Door Kit provides a tight fit around the perimeter of the door to help resist water and wind intrusion into the cab.

\* DOES NOT FIT ROUND TUBE ROPS RANGERS OR THE REDESIGNED 2018 RANGERS WITH THE NEW BODY STYLE RELEASED IN MID-2017 (See [seizmik.com/faq/](http://seizmik.com/faq/) for a side-by-side comparison of the various 2018 and newer model Rangers).

- **Custom Fit** — 0.75" tubular steel frame conforms to Polaris Pro-Fit roll cage for a custom fit
- **Built to Last** — Durable UV resistant PVC coated heavyweight textile door panels with clear UV resistant PVC windows
- **Automotive Grade Gasket** — Tight all-around seal resists water and wind intrusion into the cab
- **Heavy-Duty Steel Hinges** — Super adjustable low profile steel hinges attach to vehicle without cutting into body plastics
- **Automotive Style Latching System** — Secure and consistent closure for your doors with a built-in handle
- **Dual Zippered Upper Windows** — Able to roll down for ventilation
- **Extra Bottom Window** — Added visibility on bottom half of the doors to maneuver in tight spots
- **Integrated Storage Cover** — Keeps your rolled-up window safe and out of the way
- **Easy On, Easy Off** — The whole door comes off in seconds, no tools required, complete with removable door skins with separate upper and lower pieces
- **Seizmik Compatible** — Integrated bracket for installing any SEIZMIK side view mirror
- **Versatile** — Works with most Polaris OEM roofs and windshields & Seizmik windshields

## POLARIS RANGER XP 1000

**PART# 06024**

**MSRP: \$849.99**

- **Pinned Mounting System** — Easily set up or remove the kit from your factory door in seconds
- **Improved Two-stage Double Rotary Latching system** — Maximizes latch engagement with less effort to close using an ergonomically designed glass filled nylon handle
- **Tough Materials** — Durable UV protected polyester textile with Optical grade PVC dual zippered windows
- **Integrated Storage Cover** — Keeps your rolled-up window safe and out of the way
- **Custom Design** — 3/4" steel frame is designed to fit the Pro-Fit roll cage of the Ranger XP1000
- **Accessorize** — Built-in mounting tab for mirrors (mirrors sold separately)
- **Quick Installation** — no drilling or cutting required

## POLARIS ROUND TUBE RANGERS

**FULL SIZE**  
**PART# 06003**  
**MSRP: \$699.99**

**MIDSIZE**  
**PART# 06005**  
**MSRP: \$699.99**

- **Versatile** — These doors will work with most hard rooves, most windshields, and most back panels, saving you the cost of buying new parts
- **Flexible** — No other set of doors has this level of adjustability at any price
- **Built to Last** — The doors have a frame made of .75" diameter steel tubing, and they're covered with heavy duty water and UV resistant fabric
- **Extra Bottom Window** — Added visibility on bottom half of the doors to maneuver in tight spots
- **Stays in Place** — Tension straps keep the door frame tight and prevent flapping. The clever design works with any roof, windshield, or back panel

## POLARIS GENERAL PART# 06017

- **Seamless** — Integrates with factory 1/2 doors to create a sealed cab (with addition of a back panel and windshield, sold separately)
- **Pinned Mounting System** — Easily set up or remove the kit from your factory door in seconds
- **Tough Materials** — Durable UV protected nylon textile with Optical grade PVC dual zippered windows
- **Integrated Storage Cover** — Keeps your rolled-up window safe and out of the way
- **Custom Design** — 0.75" steel frame is designed to fit the Pro-Fit roll cage of the Polaris General
- **Accessorize** — Built-in mounting tab for mirrors (mirrors sold separately)
- **Quick Installation** — requires less mounting hardware for an easier installation to existing vehicle mounting points

NOTE: Does not fit General 4. 2018 and 2019 will require additional modifications to the inner door panel which will require a rotary tool or cutting wheel.

MSRP: \$524.99

## KUBOTA RTV 900 PART# 06010

- **Versatile** — Works with most hard tops, back panels, or windshields
- **Sturdy Construction** — 3/4" tubular steel frame and steel door latch
- **Tough Materials** — Durable water and UV resistant PVC coated heavyweight nylon fabric
- **Easy Installation** — No drilling required with Seizmik's innovative Quikfit Tightening System (doesn't void any warranties)
- **Against the Elements** — Tight all around seal resists water and wind intrusion into the cab
- **Easy On, Easy Off** — The whole door comes off in seconds, no tools required
- **Convertible** — Easily removable door skins
- **Extra Bottom Window** — Added visibility on bottom half of the doors to maneuver in tight spots
- **Tension Straps** — keep the door frame tight and prevent flapping

MSRP: \$849.99

## CAN-AM DEFENDER PART# 06027

- **Two-Stage Double Rotary Latching System** — Maximizes latch engagement with less effort to close
- **Improved Interior and Exterior Door Handles** — Ergonomically designed for comfortable operation that allows gloved hands more room to grab handle and prevents snagging limbs during tight trail riding
- **Built Tough** — Constructed with sturdy .75" diameter steel frames, UV resistant PVC Coated polyester textile, and glass filled nylon door handles and housings for extreme durability
- **Comes Off in Seconds** — Pinned Hinges and Removable Door Skins allow entire door to come off in seconds

- **Quick and Easy Installation** — Heavy-Duty Low Profile Steel Hinges attach to vehicle without cutting or drilling into body plastics and provide a range of adjustment to fine tune fitment & position
- **3/4 Window Design with Storage** — Allows rolling up & down without annoying interference with shoulder restraint bar with window storage able to keep rolled down window neat and out of the way
- **Full Perimeter Automotive Grade EPDM Foam Gasket** — Conforms to contours of door perimeter providing excellent seal and easier closing
- **Dual Zippered Window Pulls** — Provide multiple open positions for venting options
- **Versatile** — Works with OEM roofs, most windshields, and Seizmik sideview mirrors

MSRP: \$999.99

## KUBOTA RTV-X 900 AND 1120D PART# 06012

- **Versatile** — The only doors that work with most hard tops and windshields \*
- **Built Tough** — Sturdy 3/4" tubular steel frame and steel door latch with durable UV resistant PVC coated heavyweight nylon fabric
- **Easy Installation** — No drilling required with Seizmik's innovative Quikfit Tightening System, and it doesn't void any warranties
- **Easy Installation** — No drilling required with Seizmik's innovative Quikfit Tightening System (doesn't void any warranties)
- **Against the Elements** — Tight all around seal resists water and wind intrusion into the cab
- **Easy On, Easy Off** — The whole door comes off in seconds, no tools required
- **Extra Bottom Window** — Added visibility on bottom half of the doors to maneuver in tight spots
- **Seizmik Compatible** — Integrated bracket for installing any Seizmik side view mirror

\* We do not recommend installation of our doors with the 2015 Kubota branded RTV-X windshield.

MSRP: \$849.99

## KAWASAKI MULE PRO FX/FXT PART# 06020

MSRP: \$479.99

Works with both Kawasaki Mule Pro FX and FXT models (does not fit FXR models).  
NOTE: Door kit is for front doors only on FXT models. DOES NOT FIT FXR models. Requires Windshield, Roof, and Rear Dust Panel (all sold separately) to completely enclose the cab.

- **Built Tough** — 0.75" tubular steel frame conforms to Kawasaki Mule Pro FX or FXT frame and lower door
- **High-Quality Materials** — Durable UV resistant PVC coated heavyweight textile door panels with clear UV resistant PVC windows
- **Convertible** — Easily removable door skins
- **Protects Against the Elements** — Upper door seals tight against inner frame, not the roll cage, to help prevent water and wind intrusion into the cab
- **Extra Bottom Window** — Added visibility on bottom half of the doors to maneuver in tight spots
- **Roll Them Down** — Velcro straps keep dual zippered windows rolled safely out of the way
- **Seizmik Compatible** — Integrated bracket for installing any Seizmik side view mirror
- **Versatile** — Works with most Kawasaki OEM roof, back panel, and windshields & Seizmik windshields

## YAMAHA VIKING PART# 06014

MSRP: \$979.99

- **Versatile** — Works with most hard tops or windshields
- **Built Tough** — Sturdy 3/4" tubular steel frame with reinforced panels on rear window
- **Back Panel Included** — Integrated back panel with large clear, zippered vinyl window
- **High-Quality Materials** — Durable UV resistant PVC coated heavyweight nylon fabric with a steel bar to support rear panel
- **Quick Installation** — Requires drilling two holes in each standard 1/2 door with handy pull tabs so the doors can be installed without removing the hard top
- **Accessible** — Magnetically sealed access flap for reaching door latch from inside the cab
- **Integrated Storage Cover** — Keeps your rolled rear and side windows safe and out of the way
- **Extra Bottom Window** — Added visibility on bottom half of the doors to maneuver in tight spots
- **Seizmik Compatible** — Integrated bracket for installing any Seizmik side view mirror

## FULL SIZE JOHN DEERE GATOR XUV/HPX PART# 06007

MSRP: \$899.99

- **Versatile** — Works with most hard tops or windshields
- **Built Tough** — Sturdy 3/4" tubular steel frame and steel door latch
- **High-Quality Materials** — Durable UV resistant PVC coated heavyweight nylon fabric
- **Easy Installation** — No drilling required with Seizmik's innovative Quikfit Tightening System (doesn't void any warranties)
- **Protects Against the Elements** — Upper door seals tight against inner frame, not the roll cage, to help prevent water and wind intrusion into the cab
- **Easy On, Easy Off** — The whole door comes off in seconds, no tools required, complete with removable door covers
- **Extra Bottom Window** — Added visibility on bottom half of the doors to maneuver in tight spots

\* DOES NOT fit Deluxe Cab model

## HONDA PIONEER PART# 06021

MSRP: \$579.99

- **Built Tough** — 0.75" tubular steel frame conforms to Honda Pioneer 1000 frame and lower door
- **High-Quality Materials** — Durable UV resistant PVC coated heavyweight textile door panels and clear UV resistant PVC windows
- **Removable Skins** — Removable upper door fabric
- **Protect Against the Elements** — Upper door seals tight against inner frame, not the roll cage, to help prevent water and wind intrusion into the cab
- **Roll Them Down** — Velcro straps keep dual zippered windows safely out of the way
- **Seizmik Compatible** — Integrated bracket for installing any Seizmik side view mirrors
- **Very versatile** — Works with most Honda OEM rooves, back panels and windshields & Seizmik windshields

\* Works with Honda OSR95-HL4-205B and OSR95-HL4-211A Back Panels

\* DOES NOT WORK WITH Honda OSU85-HL4-105 Glass Windshield; Honda OSU95-HL4-102 and OSU95-HL4-103 Hard Back Panels; or SuperATV FWS03-001-70 Two Piece Windshield

WHICH WINDSHIELD POLYCARBONATE IS RIGHT FOR YOU?

**UV-RESISTANT**

- Incredible shatter resistance: 200x more than glass
- Soft and flexible, so it scratches easier than acrylic
- Stable in temperatures up to 260°

**SCRATCH-RESISTANT**

- All the benefits of UV Resistant polycarbonate
- Uses a similar scratch-resistant hard coating applied to both sides of the windshield, resulting in a durable scratch-resistant surface at an attractive price point

**DOUBLE-SIDED, HARD-COATED**

- All the benefits of UV Resistant polycarbonate
- One of the most scratch-resistant coatings in the industry applied to both sides of the windshield, resulting in an incredibly scratch-resistant surface

VERSA-FOLD WINDSHIELDS

The Seizmik Versa-Fold Windshield quickly converts from a full to half (folded) windshield with a quick flip of two composite levers. When folded, the top windshield is held secure with 2 heavy duty captive rubber plugs. The UV protected clear hinge is both durable and replaceable.

- **Automotive Grade High Deflection Bulb Gasket** — For protection against water and wind intrusion around the entire windshield perimeter
- **Easily Convertible** — From full to half in seconds
- **Heavy Duty Captive Rubber Plugs** — Holds upper half in place without contacting the vehicle's hood when folded
- **Easy Operation** — Quickly release/ secure upper windshield section with simple twist of 2 composite levers, no tools required
- **Built to Last** — Mechanically attached UV protected transparent hinges are durable and replaceable, durable ABS header panel seals against wind intrusion
- **Seizmik Compatible** — Works with SEIZMIK accessories: mirrors, light bars, etc.
- **Trailerable** — up to 65mph when "folded down"

\*\*includes pre-installed versa-vents

PART# 25037

PART# 26094

VERSA-VENT WINDSHIELDS

Seizmik's Versa-Vent Windshields comes equipped with two cleverly designed vents that let the driver and the passenger independently control the amount and direction of airflow.

VersaVent Windshields also feature a defog mode. No other windshield offers all these features. The vent is made of glass filled nylon, making it incredibly durable. The scoop on the front gathers up air off the hood and re-directs it to inside the vehicle so even at very slow speeds there is a surprising amount of air that can come through the vent. The design of the scoop and its gasket keeps precipitation out while still allowing airflow in—as much or as little as either the driver or passenger desires.

When placed in 'defog' mode, the vent directs outside air onto the inside surface of the windshield to help prevent fogging.

- **2 Durable Vents** — Made of glass-filled nylon and made to last
- **Gasket Sealed Components** — For protection against wind and water intrusion
- **Glass-filled Nylon Clamps** — Super strong and low profile so they do not interfere with other accessories
- **Fully Adjustable Air Flow** — Easy-to-use louver makes changing the airflow through your vents simple
- **Defog Mode** — Incoming air can be directed at the inside window surface to help prevent fogging
- **No Tools Required** — Easy to turn knobs makes installation a breeze
- **Seizmik Compatible** — Works with Seizmik accessories: mirrors, lights bars, etc.
- **Trailerable** — up to 65mph when properly prepared

## VERSA VENT SELF-INSTALL KIT PART# 90049

**MSRP: \$69.99**

The Versa-Vent Self Install Kit from Seizmik, includes 2 Seizmik Versa-Vents, cutting template, and all mounting hardware. The dual vent system is designed to add driver and passenger ventilation and anti-fogging features to any hard coated polycarbonate windshield.

The scoop design gathers air off the hood and re-directs it to the inside of the vehicle—even slow speeds generate a surprising amount of air through the vent. The design of the scoop and the gasket between it and the windshield keeps precipitation out while still allowing airflow in—as much or as little as either the driver or passenger desires.

- Made of super-durable glass-filled nylon
- Designed with built-in defogging vents
- Gasket sealed against water intrusion
- Fully adjustable easy-to-use louver for variable airflow
- Two vents per windshield

**WARNING:** Installation requires cutting your windshield. Please read directions carefully and install AT YOUR OWN RISK. Only attempt to cut polycarbonate windshields. Acrylic windshields will most likely crack if you attempt to install this kit. DO NOT attempt to install in glass.

## WINDSHIELD WIPER WASHER KIT PART# 30011

**MSRP: \$279.99**

The UTW Windshield Wiper Washer Kit from Seizmik includes: wiper motor assembly; wiper arm & blade; pump; washer fluid reservoir; hose & fittings; wire harness; and mounting hardware. Equipped with dual, independently adjustable jets, 110° of wiper range motion to cover the driver's side of the windshield, and a 2 speed motor with a park position feature that positions the blade high and out of the way when turned off.

- **14" Automotive Wiper Blade**— May be replaced with a standard style wiper blade
- **Wiper Motor Options**— 2 speed motor with automatic park position
- **Independent Operation** — Washer operates independently of the wiper motor; allowing the user to flood the windshield of mud and debris prior to starting the wiper. A great feature for the mudder in you life
- **Sturdy Steel Backing Plate** — Heavy duty mounting structure with rubber vibration isolation bumpers against windshield
- **Hose** — 16' long hose provides enough length to place jets in a number of locations
- **1.5 Quart Reservoir** — Enough capacity to get the job done
- **4 Spray Nozzles** — Independently aim the adjustable dual jets in each nozzle for optimum coverage
- **Plastic Hose Fittings** — Multiple options so you can have it exactly how you want it
- **Simple Installation** — Position wiper on your windshield, then locate the 2 points to drill

**\*\*WARNING:** Installation requires drilling two holes in the windshield. **INSTALL IN HARD COATED POLYCARBONATE WINDSHIELDS ONLY.** Please read directions carefully and install AT YOUR OWN RISK. Acrylic windshields will most likely crack if you attempt to cut and install this kit. DO NOT attempt to install in a glass windshield.

## OVERVIEW

**ICOS 2 AR GUN HOLDER**  
**PART# 07500**

**MSRP: \$229.99**

The ICOS 2 AR is an innovative gun holder solution that allows an owner to carry up to 4 guns in their UTV securely and away from the elements while providing quick access to them all. It holds 2 hunting/long firearms just like the original ICOS, however this unit is better equipped to hold ARs with magazines as well as 2 handguns and 2 extra magazines (Pistol & Magazine Holders Add-On Kit sold separately).

Best of all, there is no need to drill any holes into your vehicle or go through complicated installs. Just click the ICOS 2 AR into place using the vehicle's existing seat belt\* ‡ and you're ready to go. Part of a line of innovative UTV specific hunting accessories designed and manufactured by SEIZMIK—an industry leader in UTV specific gear.

\* Seatbelt required to install – not included  
‡ Three point seatbelts require use of included seat belt adjuster clip.

- **Stealth Design** — No noisy velcro to alert game; Soft chassis allows for quiet operation
- **Exo Shell Armored Foam** — Proprietary Foam Chassis is tough and durable yet absorbs shocks and vibrations while keeping your firearms steady and protected
- **Easily Installation** — Just click in using vehicle seat belt and go, no tools required
- **Fully Padded Gun Cradles** — Securely surrounds and holds up to 2 guns in soft, cushioned channels that won't mar firearm finishes
- **Stealth Retention Straps** — Silently mount and dismount guns while keeping them secured
- **Heavy Duty Quick Release Buckles**— Glass Filled Nylon Buckles for tough reliability
- **Muzzle Control** — Keeps guns pointed down towards the vehicle floor
- **AR Compatible Design** — Magazine and Handle Cavities designed specifically to accommodate ARs with 30 round magazines
- **Multiple Shooting Rests** — Integrated Upper and Lower Shooting Rests provide a stable platform for target shooting or hunting
- **Integrated Pistol Holder Mounting Points** — Injection Molded Rubber Pistol Holster (sold separately, see next page) is designed to fit most semi-automatic pistols and revolvers
- **Mix and Match** — Holds any combination of 2 hunting/long firearms or ARs with magazines

**WATCH THE ICOS & ICOS 2 AR ON A RIDE**

**ICOS 2 AR PISTOL AND MAGAZINE HOLSTER ADD ON**  
**PART# 07501**

**MSRP: \$49.99**

Seizmik's Pistol & Magazine Holsters Add-On Kit for the ICOS 2 AR allows up to 2 handguns and 2 extra magazines to be carried alongside the ICOS 2 AR's hunting/long firearms. The injection molded pistol holster is designed to fit most compact semi-automatic pistols, full size semi-automatic pistols, and revolvers. Ergonomically designed pockets allow the handgun to be quickly accessed and securely gripped regardless of which holster or hand is used.

- **Universal Pistol Holder** — Molded rubber housing holds medium to larger guns snug while the recessed hardware does not contact weapon's surfaces
- **Magazine Holder** — Extra magazines can be stored separately in divided slot
- **Retention Straps** — Tough straps & buckles hold guns and magazines securely in place under the most extreme riding conditions
- **Ergonomically Designed Easy Access** — Ergonomically designed finger pockets allow you to securely grasp pistol as you remove it from the holster in one quick motion

**ICOS GUN HOLDER**  
**PART# 07200**

**MSRP: \$169.99**

The ICOS (In Cab On Seat) Gun Holder requires no tools, installs in seconds, and utilizes the vehicle's existing seat belt to mount within the UTV. It offers fantastic muzzle control, keeping the gun barrels pointed safely at the floor of the vehicle. Compression straps with buckles (i.e. no Velcro® straps) are used to secure the gun within the channels, so storing or retrieving a weapon won't alert game. The ICOS's brilliance is its simplicity.

- **Heavy Duty Quick Release Buckles** — Glass filled nylon buckles for tough reliability
- **Easily Installation** — Installs in seconds without tools! Just click in using vehicle seat belt and go\*
- **Exo Shell Armored Foam** — Proprietary foam chassis is tough and durable yet absorbs shock and vibrations while keeping your firearms steady and protected
- **Cushioned Gun Cradles** — Holds guns securely surrounded in soft closed cell foam-cushioned channels that won't mar firearm
- **Stay Safe** — Muzzle control keeps guns pointed down
- **Stealth Design** — Silently mount and dismount guns while keeping them tightly secured

\* Seatbelt required to install – not included  
‡ Three point seatbelts require use of included seat belt adjuster clip.

ARMORY X-RACK

MSRP: \$159.99

The Armory X Rack works in tandem with the Armory SST Gun Case to store and transport two firearms (requires two Armory SST cases and one Armory X Rack). The Armory SST case is easily installed or removed from the Armory X Rack without the need for tools. A durable, glass-filled nylon lever is large enough to easily operate with gloves or mittens, and once released, the case lifts right out.

- **Superior Storage** — Rack holds up to 2 gun cases (sold separately)
- **Built Tough** — Heavy gauge steel frame holds gun cases steady under rough conditions
- **Easy Loading** — Spring loaded binding for quick and secure case load and release
- **Efficient Placement** — Positions the cases over the dump bed of most vehicles, leaving the bed clear for gear or game
- **Safety First** — Points guns up and away for superior muzzle control

Part #	Fitment
07101	Polaris Full Size Ranger
07102	Polaris Mid-size Ranger
07103	Kubota RTV-X 900/1120D
07104	Universal
07105	Full Size Gator XUV/HPX

ARMORY R1 RACK FOR POLARIS RZR  
PART# 07106

MSRP: \$139.99

Built for one Armory SST Gun Case, the Armory R1 Rack works in tandem with the Armory SST gun case to store and transport a firearm (requires one Armory SST case and one Armory R1 Rack). The design of the system positions the case over the rear roof line of the RZR.

The Armory SST case is easily installed or removed from the Armory R1 Rack without the need for tools. Once released, the case lifts right out. With the Armory R1 Rack attached to the vehicle, its stiff, rigid, and strong—staying securely attached to the vehicle no matter how aggressive the terrain gets.

**FITS:** Polaris RZR 1000xp 2 and 4 seat models (2014 - 18)  
Polaris RZR Turbo 2 and 4 seat models\* (2016 - 18)  
\*DOES NOT FIT the Polaris RZR 900S, 1000S, Turbo S

- **Built Tough** — Heavy gauge steel frame holds gun cases steady under rough conditions
- **Easy Loading** — Spring loaded binding for quick and secure case load and release
- **Efficient Placement** — Positions the cases over the dump bed of most vehicles, leaving the bed clear for gear or game
- **Safety First** — Points guns up and away for superior muzzle control

ARMORY SST GUN CASE  
PART# 07100

MSRP: \$199.99

The Armory SST (Secure Storage & Transport) Gun Case works in tandem with the Armory X Rack to store and transport two firearms (requires two Armory SST cases and one Armory X Rack).

A durable, glass-filled nylon lever is large enough to easily operate with gloves or mittens, and once released, the case lifts right out.

- **Accessible Design** — Case lid cut design provides superior access to Shotguns, Rifles, and ARs with or without optics up to 52" long
- **Rigid and Strong** — Stays securely attached to the vehicle no matter how aggressive the terrain gets
- **Unique locking hinge** — Keeps the case open, freeing up both hands while accessing the firearm inside
- **Maximum Inside Stability** — Moveable foam blocks keep the firearm firmly in place, assuring nothing makes contact with the sights or optics even over the roughest terrain
- **Store More** — Room for extra rounds, equipment, or cleaning supplies

OVERHEAD GUN RACK

MSRP: \$169.99

The OHGR (OverHead Gun Rack) installs between the factory header panel up front and the ROPS (rollover protection system) in the rear. The OHGR stores the guns overhead and out of the way. The OHGR (pronounced 'ogre') looks as good as your guns—not like something someone made in the garage.

The rubber straps that hold the gun in place offer stealth operation when storing or removing guns from the OHGR.

Part #	Fitment
07300	1.5", 1.625", & 1.75" Universal
07301	1.875 & 2" Universal
07302	Polaris Pro-fit Ranger
07303	Can-Am Defender

- **Built Tough** — Steel support bracket and thick plate and cast steel brackets mount rack solidly and securely with glass filled nylon housing components
- **Durable and Adjustable** — Grip conforms to gun stock and barrel, with multiple settings to hold jaws securely shut around the firearms
- **Premium Rubber Lined Jaws** — Protects the finish of the firearm by keeping them away from metal surfaces at all times
- **Stealth Operation** — Quiet loading and unloading to hunt smarter
- **Added Support** — Cast aluminum support bracket enhances stability

## HOOD RACKS

Keep your cargo in sight and safe with our vehicle-specific hood racks. All steel construction and hood accessibility make it a great choice for taking your favorite items on the go safely and efficiently.

- **Maintain Hood Access** — Pivots forward for quick access under the hood without use of tools
- **Expand Carrying Capacity** — For example, tools can be carried on the hood rack and supplies can be loaded in the dump bed
- **Customize Your Cargo** — Hood rack has multiple attachment points for gear grips, chain clamps, and more to easily strap cargo down
- **Seizmik Compatible** — Works seamlessly with SEIZMIK windshields and soft tops
- **Easy Install** — Takes less than 30 minutes without technical knowledge, special tools or drilling
- **Nearly Indestructible** — Constructed from all steel and proven to be tough

PART# 08073

PART# 08018

## CARGO X10D BED EXTENDER FOR HONDA PIONEER 1000-5 AND 700-4 PART# 05010

MSRP: \$399.99

The Seizmik Bed Extender for the Honda Pioneer 1000-5 and 700-4 increases the amount of usable storage space in the vehicle. The additional area allows extra storage and hauling capacity, even when the rear seats are in use.

- **Steel Construction** — Made from 1" round steel tubing
- **Increased Bed Capacity** — Increases the amount of useable storage space with the rear seats in the upright position allowing a large cooler or storage box up to 75 lbs. to be transported
- **Quick Deployment** — Spring clips allow for quick opening and closing
- **Flat Load Floor** — Bed extender tailgate folds out of the way allowing for extended flat loads
- **Self Storing** — Folds and stores neatly against closed tailgate when not in use
- **Durable Finish** — Gloss black powder coat finish

WATCH THE ACTION UNFOLD

Deploys in seconds.

Adds 6 inches to end of tailgate.

Allows for hauling gear when rear seats are in use.

Folds down out of the way for long flat loads.

## DUMP BED RACK FOR POLARIS GENERAL PART# 05007

MSRP: \$369.99

Secure and carry cargo above the dump bed of your General. The basket measures 42" x 20" and sits 4.5" above the dump bed edge. Side rails are 9" tall and there is a 100 lb weight limit.

- **Carry More, Better** — 30% more storage with side rails that double as bed extenders
- **Heavy Duty Construction** — All steel components including 1.5" tubular steel side rails and 3/4" tubular steel basket
- **No Drilling Required** — Utilizes existing Polaris Lock N Ride® holes
- **Vehicle Specific** — Designed specifically for the Polaris General
- **Easy Removal** — Basket is easily removed without tools, using 4 star bolts
- **Secure Your Cargo** — Lots of tie down spots for securing cargo and Diagonal tie-rods keep the rails and basket secure even over rough terrain

## SOFT REAR DUST & WINDOW PANELS

Designed to provide a tight fit, the Soft Rear Dust & Window Panel keeps out the dust, wind, and rain that comes in with the backdraft on UTV's that have windshields and roofs installed. Industrial grade Velcro is used to install the fabric around the vehicle's roll bars. Works with many types of machines as described below.

- **Tough Yet Great Visibility** – Durable UV resistant PVC coated heavyweight nylon fabric with huge clear UV resistant PVC window
- **Ventilation Option** – Dual zippered window rolls up and fastens with velcro straps for ventilation
- **Take It To Go** – Trailerable with properly installed windshields
- **Easy Installation** – No drilling or tools required for installation
- **Trailerable** – ONLY with rear window open and top properly secured. MAX SPEED: 55

## HARD REAR DUST PANEL FOR POLARIS GENERAL

MSRP \$249.99

PART# 04025

- **Durable** – Available in 0.220" clear, uncoated polycarbonate
- **Vehicle Specific** – Works only with Polaris Pro-Fit channeled roll cage
- **Doesn't Interfere** – Low profile doesn't hinder performance of other accessories and contoured cut does not interfere with dump bed operation
- **Easy-Turn Knobs** – No tools required to install
- **Ride More Comfortably** – Reduces blow-back into the cab

## SOFT TOP & REAR COMBO PANELS

- **Built Tough** – Constructed with durable heavy-duty waterproof PVC coated denier nylon textile with UV protection
- **Super Tight Tailored Fit** – Quikfit Tightening System & velcro closures means tight and clean installs with no loose ends
- **Easy Installation** – Install and removes easily with no drilling or tools required
- **Maintains Visibility** – Integrated large rear window conveniently rolls up
- **Trailerable** – ONLY with rear window open and top properly secured. MAX SPEED: 55 MPH

## LIGHT BAR MOUNTS BRACKETS FOR POLARIS RZR 900S AND 1000 PART# 12110

MSRP \$24.99

If you want to include a light bar on your RZR, look no further than these mounts. They fit 30" or 32" light bars and are sold in pairs for your convenience.

- **Built to Last** — All steel construction
- **Aggressive Styling** — Integrates with the RZR 900s and 1000 roofs
- **Two Mounting Positions** — For accommodating various sizes of light bars
- **No Drilling Required** — Bolt to roll cage using existing holes, not drilling required

## STEEL GRAB HANDLE PART# 03060

MSRP \$34.99

The most stable removable UTV Grab Handle on the market! SEIZMIK's grab handle is an extremely durable solution for adding a stable grip to your UTV. Rubber pads keep it from sliding and twisting while driving through the roughest terrain or entering and exiting the UTV.

Fits all UTVs with round tube ROPS (except Polaris Ranger XP 900, Kubota RTV-X1100C, and John Deere Gator XUV Deluxe Cab)

- **Heavy duty** — Steel handle made to last
- **Comfortable** — Rubber grip reduces wear on hands
- **Easy Install** — Velcro strap makes it easy to take on and off
- **Specific To You** — Place it anywhere on your UTV's rollbar
- **One Size Fits Most** — Fits 1.5" to 2" round roll bar
